

Dear Editors,

We would like to thank the editor, editorial team and the reviewers for their review the manuscript and invaluable suggestions and comments.

We have suitably revised the manuscript based on these comments as under:

Reviewers' comments and response:

Reviewer 1: none

Response: We would like to thank the esteemed reviewer for taking time out to review and approve of the manuscript.

Reviewer 2: I read with great care the manuscript titled: “Acute and Chronic Hepatobiliary manifestations of Sickle cell disease: A review”. I have several remarks: 1. Check typing errors 2. Please define abbreviations before first use – put abbreviation list at the beginning.

Response: We would like to thank the esteemed reviewer for carefully reviewing our manuscript and suggesting changes.

We have thoroughly reviewed our manuscript and have made changes as per your suggestion.

- All authors have individually reviewed manuscript and corrected spelling and grammar errors as well as typographical errors.
- All abbreviations are reviewed, list moved to the beginning of the manuscript.
- 

In addition as per the editorial teams recommendations,

- All references style modified as per your suggestion, superscript and in square bracket.
- Modified conflict of interest statement as per mini review guidelines
- Zip code for all institutes (Author affiliation) has been provided.

We would again like to thank the editors, reviewers and the editorial team for this opportunity.

Sincerely,

Rushikesh Shah

Cesar Taborda
