Title: Radio-chemotherapy for bladder cancer: contribution of chemotherapy on local control

Author: George A. Plataniotis and Roger G. Dale

Name of Journal: *World Journal of Radiology*

ESPS Manuscript NO:3045

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated

2. Revision has been made according to the suggestions of the reviewer

We made the title shorter (10 words), included postcodes, Fax number (first page)

We made a reference to toxicity as per reviewer's comments (in red) pages 4 and 11

"Clarification of the first sentence of the abstract would be helpful" please see the 1st paragraph of summary (in red)

"In materials and methods, how many papers at beginning and end of sort would help" This has already been done in pg 6 (red)

"A limitations section stating different chemotherapies and different fractionations and total dose for XRT may be helpful" this is already done and explained in detail (page 6 and all the very extensive TABLES)

3. References and typesetting were corrected. PMID and DOIs were added. In a few cases PMIDs were

not possible to be found as they were not given by the system

Thank you again for publishing our manuscript in the *World Journal of Radiology*

Sincerely yours,
