COMMENTS TO AUTHORS

This is a good editorial which address up to date issue. Minor comments: 1- Introduction page 4 . Note that Microsatellite instability and chromosomal instability cannot be included under epigenetics. 2- Page 4: the paragraph starting with "Cancer cells are embedded in a local stromal.." need to be clarified and re-written 3- Need to specify which Adipo receptor when you mention :increased Adipo-R is it 1 or 2 or both?
