

Herwig Cerwenka and Peter Schemmer

Are our endoscopy patients at risk for pyogenic liver abscess? (Invited Comment ID 00058381 on ESPS Manuscript No. 32389: Tsai MJ *et al.*: Recent upper gastrointestinal panendoscopy increases the risk of pyogenic liver abscess)

There are no conflicts of interest.

Two handwritten signatures in black ink. The signature on the left is 'Herwig' and the signature on the right is 'Cerwenka'.
