

## Format for ANSWERING REVIEWERS

August 25, 2012

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 3495-review.doc).

**Title:** Effect of low level laser therapy on dental pulp during orthodontic movement.

A pilot study

**Author:** Angela Domínguez, Rosa Emilia Ballesteros, Jairo Hernán Viafara, Oscar Tamayo.

**Name of Journal:** *World Journal of Methodology*

**ESPS Manuscript NO:** 3495

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1). It was explained how angiogenesis could be evaluated under normal H&E sections.

(2) The main findings and evaluation were classified in to 3 parts; an inflammatory response, soft tissue response, and hard tissue (dentin) response.

(3) It was attached to the discussion the effect on pulpal tissue during the use of a high-speed cutting bur, when the teeth were cut into 2 fragments, and the dental occlusion trauma related to necrosis was excluded.

(4) The words "a significant difference" were eliminated in the Results.

(5) The whole manuscript was evaluated by a second English native speaker.

(6) The method sample description was thoroughly complemented.

(7) The ethical issues were managed to conform with the principles of the declaration of Helsinki.

(8) The tooth number, the type of treatment or groups were included as data.

(9) Text formatting was carefully reviewed

(10) The aim of the study was modified

(11) We report the findings in the Results (abstract)

(12) The pathologist evaluation to give the final scores was included in the method.

(13) Tables have been reviewed

(14) A comparative between previously used methods was included in the discussion.

(15) The "Ethical issues" were included in the beginning of the Materials and Methods.

3 References and typesetting were corrected
