Resistance of *Helicobacter pylori* to furazolidone and levofloxacin: A viewpoint

Mohammad Zamani, Arash Rahbar, Javad Shokri-Shirvani

Abstract

In their review, Arslan *et al* did not describe the status of *Helicobacter pylori* (*H. pylori*) treatment with furazolidone and the resistance to this antibiotic. We have presented different surveys showing the resistance of *H. pylori* to furazolidone from Asia and South America. The resistance rates varied but were mostly low (<5%). There are not enough data on its efficacy and resistance in the United States and Europe. *H. pylori* mutations occurring in the *oorD* gene, including A041G, A122G, C349A(G), A78G, A112C, A225C, C156T and C165T and in the *norD* gene, including C252A, A256C
