### *Retrospective Study*

Factors associated with carcinoid syndrome in patients with gastrointestinal neuroendocrine tumors

Bei-Lei Cai, Michael S Broder, Eunice Chang, Ting-Jian Yan, David C Metz

### **Abstract**

#### *AIM*

To discover unknown factors associated with carcinoid syndrome (CS) with the goal of earlier diagnosis of CS.

#### *METHODS*

In this retrospective case-control study using US administrative claims, patients ( $\geq 18$  years) newly diagnosed with gastrointestinal neuroendocrine tumors (GI NETs) without CS (controls) were exactly matched to patients with CS (cases) based on NET

### Match Overview
