## Match Overview

Name of Journal: *World Journal of Gastroenterology*

Manuscript NO: 35260

Manuscript Type: CASE REPORT

**Faecal microbiota transplantation in patients with *Clostridium difficile* and significant comorbidities as well as in patients with new indications: A case series**

Perttu Lahtinen, Eero Mattila, Veli-Jukka Anttila, Jyrki Tillonen, Matti Teittinen, Pasi Nevalainen, Seppo Salminen, Reetta Satokari, Perttu Arkkila

### Abstract

Fecal microbiota transplantation (FMT) is effective in recurrent *Clostridium difficile* infection (rCDI). Knowledge of the safety and efficacy of FMT treatment in immune deficient patients is scarce. FMT has been suggested as a potential method for an
