

Dear editor,

I have reviewed the statistical methods of the study described in the manuscript "Person-centered endoscopy safety checklist: development, implementation and evaluation" by Hanna Dubois and co-workers. Statistical analysis was performed using SAS version 9.4 (SAS Institute).

Best regards,

Donal Barrett

Department of Medical Statistics and Epidemiology at Karolinska Institute.

A handwritten signature in blue ink, appearing to read "Donal Barrett". The signature is fluid and cursive, with the first name "Donal" and last name "Barrett" clearly distinguishable.
