COMMENTS TO AUTHORS

Article „Fluid Balance Concepts in Medicine: Principles and Practice“ by Roumelioti M et al. is according to my opinion, acceptable for publication. In this very extensive article authors presented and compared different concepts of fluid balance. The special value of this article is clinical examples of different fluid disbalances.

COMMENTS TO AUTHORS

This is an interesting review paper enough for publication. However, its whole volume is too heavy for general journal article. Thus, it is need to reduce whole volume for about half of original version. More concise writing focusing on the core tip should be encouraged.
