

Orthopedics

UNIVERSITY OF COLORADO

Certificate of Biostatistics

9 November 2017

To Whom It May Concern,

Title of Study/Manuscript: Different types of mechanical complications after surgical correction of adult spine deformity with osteotomy

Primary investigator: Evalina L Burger, MD
Department of Orthopedics
University of Colorado School of Medicine
Anschutz Medical Campus

This certificate is to confirm that the primary data, statistical methods, obtained results and content of the manuscript entirely correspond to the study protocol approved by the Colorado Multiple Institutional Review Board (COMIRB Protocol 14-1258). The applied statistical methods are adequate to the study purpose and type of the collected primary data. The statistical analysis was performed properly. The interpretation of the results is adequate. The obtained results correspond well with other independent clinical observations.

Andriy Noshchenko, PhD
Biostatistician of the Department of Orthopedics

Robert D'Ambrosia, MD
Department Chair of Orthopedics
University of Colorado School of Medicine
Anschutz Medical Campus
Assistant: Christine.Zinn-Block@ucdenver.edu
