Review of the relationship between intestinal microbiota and ulcerative colitis and its treatment with probiotics and fecal microbiota transplantation

ShenZH *et al.* Relationship between intestinal microbiota and UC

Zhao-Hua Shen, Chang-Xin Zhu, Yong-Sheng Quan, Zhen-Yu Yang, Shuai Wu, Wei-Wei Luo, Bei Tan, Xiao-Yan Wang

Abstract

Ulcerative colitis (UC) is an inflammatory disease that mainly affects the colon and rectum. It is believed that genetic factors, host immune system disorders, intestinal microbiota dysbiosis and environmental factors
