Management of endoscopic biliary stenting for choledocholithiasis: evaluation of stent-exchange intervals

Gen Tohda, Masaki Dochin

Abstract**AIM:** To evaluate the best management of plastic stents in patients with choledocholithiasis who were unfit for endoscopic stone removal or surgery.**METHODS:** Between April 2007 and September 2017, 87 patients (median age 83.7 years) with symptomatic choledocholithiasis were treated with insertion of 7-Fr**Match Overview**
