

Dec. 15, 2017

Dear Reviewers,

Thank you for your favorable evaluation of my manuscript and recommendations. Per your comments, I have added more recent references and corrected the reference list according to NLM guidelines. Further, I added a section on meta-supervision and limitations. All changes are indicated by track changes in the document. I have also completed the Copyright agreement. I have not submitted the Audio Tip because I am unsure how to do so. Please advise me on the proper process. I look forward to publication in the World Journal of Clinical Pediatrics. Thank you.

Sincerely,

Robert D. Friedberg, Ph.D., ABPP
