JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

Although EUS-guided placement of fully covered self-expanding metallic stent is a good proposal to be able to treat WOPN even in the situation without fluoroscopy, it is important point high skill is required. Although the existence of EUS experts such as the author is essential for this method to become widespread, it is very interesting study. This article should be accepted in World Journal of Gastrointestinal Endoscopy
