

NPG Language Editing Editorial Certification

This is to certify that the manuscript titled "Neutrophil-lymphocyte Ratio Predicts Prognosis of Hepatocellular Carcinoma After Liver Transplantation" was edited for English language usage, grammar, spelling and punctuation by one or more native English-speaking editors at Nature Publishing Group Language Editing. The editors focused on correcting improper language and rephrasing awkward sentences, using their scientific training to point out passages that were confusing or vague. Every effort has been made to ensure that neither the research content nor the authors' intentions were altered in any way during the editing process.

Documents receiving this certification should be English-ready for publication; however, please note that the author has the ability to accept or reject our suggestions and changes. To verify the final edited version, please visit our verification page. If you have any questions or concerns over this edited document, please contact NPG Language Editing at support@le.nature.com.

Manuscript title: Neutrophil-lymphocyte Ratio Predicts Prognosis of Hepatocellular Carcinoma After Liver Transplantation

Authors: Guang-qin Xiao, Chang Liu, Dali Liu, Jia-yin Yang, Lu-nan Yan

Key: 13A3-5B99-4F4D-385D-1C10
