

Topic	Item	Describe how description	Reported on Page
Title	1	The title "case report" indicates a study along with the case itself	
	2	It is keywords immediately above the main title	
	3	Introduction - What is the case about? What are the key findings?	
	4	The main symptoms of the patient and the key findings	
Abstract	5	The main diagnosis, key findings, and outcomes	
	6	Conclusion - What are the main "take-away" messages from the case?	
	7	One or two paragraphs summarizing why this case is unique and relevant	
	8	The structured abstract information and the patient specific information	
Introduction	9	Main symptoms and symptoms of the patient	
	10	Medical history, key symptoms, history including relevant patient information (case description)	
	11	Relevant interventions and key outcomes	
	12	Describe the relevant physical examination (PE) and other significant observations	
Case description	13	Important information from the patient's history organized as outlined	
	14	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	15	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	16	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Diagnosis	17	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	18	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	19	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	20	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Treatment	21	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	22	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	23	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	24	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Outcome	25	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	26	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	27	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	28	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Conclusion	29	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	30	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	31	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	32	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
References	33	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	34	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	35	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	36	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Acknowledgements	37	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	38	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	39	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	40	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Funding	41	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	42	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	43	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	44	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Conflicts of interest	45	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	46	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	47	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	48	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
Ethics approval	49	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	50	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	51	Diagnosis, history, key symptoms, history including relevant patient information (case description)	
	52	Diagnosis, history, key symptoms, history including relevant patient information (case description)
