Aihe: Study Rye bread fermentable carbohydrates and abdominal symptoms
postprandial study 31767 registered in ISRCTN registry with ISRCTN

Päivämäärä: 25. helmikuuta 2016 klo 17.52

Vastaanottaja: riitta.freese@helsinki.fi

Dear Trialist,

We are pleased to inform you that the study entitled "Rye bread fermentable carbohydrates and abdominal symptoms" is now registered in the ISRCTN registry. You can view your study at: <http://www.isrctn.com/ISRCTN11005234>

Thank you for registering your study with the ISRCTN registry.

When quoting your ISRCTN number in manuscripts and other documentation, please make sure to use the correct format. As part of our commitment to transparency of clinical trials reporting, we encourage you to contact us at any time. Please note that, once registered, we can't remove information from a record, or replace previous information with new information. When writing your article, there are a number of reporting guidelines available to help you; many journals require you to register your study in the ISRCTN registry.

The ISRCTN registry is administered and published by BioMed Central, which also publishes over 290 peer-reviewed journals. You can browse BioMed Central's range of journals at: <http://www.biomedcentral.com/journals>

UK only – The UK National Institute of Health Research (NIHR) has signed up for a Supporter Membership which helps us improve our services, please tell us about your ISRCTN registration experience in this short survey: <https://www.isrctn.com/survey>

Kind regards,

ISRCTN Editorial Team
