**NOTES:**

This CIHR grant is conditional upon the support from all partners outlined in the application. Please contact CIHR if there is a decrease in the commitments that have been pledged for this grant.

CIHR requires that its contribution to your research be acknowledged in all written and oral presentations of your research results, including scientific articles, news releases, news conferences, public lectures and media interviews. For all scientific articles the CIHR acknowledgement must include your Funding Reference Number (FRN) indicated above in the "Payment Details" section. Please see CIHR's Guidelines on Public Communication which are enclosed for more information on public communication and acknowledging requirements.

You received this funding because your colleagues volunteered their time to assist CIHR with the review of your application. We ask that, as a recipient of CIHR funding, you will participate in CIHR peer review activities if invited.

By drawing on the funds provided through this grant/award you agree to the terms and conditions set out in the attached "Conditions of Funding", any breach of which may result in CIHR taking remedial action as described therein.

If you are in receipt or become eligible to receive any funding from another source for any part of this project you must advise CIHR immediately by following the instructions outlined in the "Funding Overlap Declaration" form <http://www.cihr-irsc.gc.ca/e/797.html>. Failure to self-declare overlap could lead to CIHR cancelling all funding related to this grant.

CIHR will require you to submit an electronic Final Report through the Research Reporting System on ResearchNet for this grant. Instructions will be provided through an email notification from the ResearchNet system once the activity becomes available.
