Quality of care in inflammatory bowel diseases: What is the best way to better outcomes?

Matthew Strohl, Lorant Gonczi, Zsuzsanna Kurt, Talat Bessissow, Peter L Lakatos

Abstract:

Inflammatory bowel disease (IBD) is a lifelong, progressive disease that has disabling impacts on patient's lives. Given the complex nature of the diagnosis of IBD and its management there is consequently a large economic burden seen across all health care systems. Quality indicators (QI) have been created to assess the different façades of
