

**Ze-Mao Gong, Director, Editorial Office
Baishideng Publishing Group Co.,
World Journal of Hepatology.**

Dear Ze-Mao Gong,

For more than 18 years I have been revising and editing for publication in the most prestigious international medical journals the articles produced by many of the departments of the two principal universities in Naples, Italy, including the department of Infectious diseases headed by Prof. Evangelista Sagnelli. I was born and educated in Great Britain, have diplomas in both English and Italian and have worked consistently as a medical/scientific text reviser for the past 30 years.

I have thoroughly revised the manuscript entitled “**MICRO-RNAs IN HEPATITIS B VIRUS (HBV)-RELATED CHRONIC LIVER DISEASES AND HEPATOCELLULAR CARCINOMA**” Manuscript NO: 38981 for publication in the World Journal of Hepatology.

I, therefore, deem that it is fit for publication and does not require any further revision.

I remain at your disposal should you need any further information.

Yours sincerely

Elizabeth McGarry
