Dear Sirs,

by signing this letter, I Professor John Frederick Osborn, born and for 50 years resident in England, confirm that the language of manuscript entitled "Role of osteoprotegerin/receptor activator of nuclear factor kappa B/receptor activator of nuclear factor kappa B ligand axis in nonalcoholic fatty liver disease (Authors: Lucia Pacifico, Gian Marco Andreoli, Miriam D'Avanzo, Delia De Mitri, Pasquale Pierimarchi) is excellent English and is certainly of sufficiently high quality to be published in a world class scientific journal; I am sure that it surpasses the level required for Grade A.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'J. Osborn'.
