

## Match Overview

**Name of Journal:** *World Journal of Gastroenterology*

**Manuscript NO:** 39082

**Manuscript Type:** REVIEW

**Current practices and future prospects for the management of gallbladder polyps:  
a topical review**

**Abstract**

A gallbladder polyp is an elevation of the gallbladder mucosa that protrudes into the gallbladder lumen<sup>[1,2]</sup>. Gallbladder polyps have an estimated prevalence of approximately 5% in the global population, however only 5% of all polyps are considered to be 'true' gallbladder polyps<sup>[3,4]</sup>. The majority of gallbladder polyps are detected incidentally on radiological imaging or histological examination after
