Biliary strictures complicating living donor liver transplantation: Problems, novel insights and solutions

Rao HB *et al.* Novel solutions for post-transplant biliary strictures

Harshavardhan B Rao, Arjun Prakash, Surendran Sudhindran, Rama P Venu

Abstract

Biliary stricture complicating living donor liver transplantation (LDLT) is a relatively common complication, occurring in most transplant centres across the world. Cases of biliary strictures are more common in LDLT than in deceased donor liver transplantation. Endoscopic management is the mainstay for biliary strictures complicating LDLT and includes endoscopic retrograde cholangiography,
