

EXACT SCIENCE COMM, LLC

EDITING CERTIFICATE

This certificate may be verified at: <https://figshare.com/s/c26570cd3e6853a91f2c>

29 March 2018

To Whom it May Concern:

This document certifies that the manuscript entitled, "**Chronic carpal tunnel syndrome caused by covert tophaceous gout**," by Pengbo Luo, et al. was edited for correct English and style by a native English speaker with a biomedical educational background. This professional English editing was done by an editor of Exact Science Communications, LLC.

Documents receiving this certification should be English-ready for publication. While we guarantee that the version of the manuscript we returned to Dr. Luo was edited according to the highest standards of biomedical editing, we cannot guarantee that the version he submits to *World Journal of Clinical Cases* is that same version. Sometimes authors make changes to the edited version we returned to them, and then submit as their final manuscript this altered version.

Regardless, if you should have any questions or concerns about the above manuscript or certificate, please contact me. Exact Science is a US-based company that has been helping non-native English speaking physicians and scientists improve their research documents for over 20 years.

Sincerely yours,

Brian W. Leonard, Ph.D.
