SPECIFIC COMMENTS TO AUTHORS

This is an interesting report. Although the number of cases is limited, the authors describe well their experience and make recommendations also on the basis of published literature. The discussion is thorough and appropriate. The English language needs

SPECIFIC COMMENTS TO AUTHORS

The authors report on 23 recurrent carpal tunnel syndrome from over 400 patients treated. I like the manuscript, although data may show a better graphical presentation. The authors should also expand the evolution of CTS decompression surgery with open
