Medical Ethics Review Report

By initial review the application document and by the guidelines for the review process, the project "Long-term outcomes of endoscopic resection for small (≤ 4.0 cm) gastric gastrointestinal stromal tumors originating from the muscularis propria layer" is suitable for **Expedited Review** by its nature of retrospectively analyzed the clinical records and existing data from subjects who were diagnosed and treated with a routine clinical practice.

The study has potential in enhancing health or advancing knowledge, a favorable risk-benefit ratio has been adequately assessed, rights and interests of subject are adequately protected and potential conflicts of interest of investigators are addressed, and the purpose of the project is for research only.

We **APPROVED** the project.

Dr. Wei-Hua Yan, Chairman,

Institutional Medical Ethics Review Board

Taizhou Hospital of Zhejiang Province

March 19, 2018.

Wei-Hua Yan
