**Immunometabolism: A novel perspective of liver cancer microenvironment
and its influence on tumor progression**

Qi Zhang, Yu Lou, Xue-Li Bai, Ting-Bo Liang

Abstract

The initiation and progression of liver cancer, including hepatocellular carcinoma and intrahepatic cholangiocarcinoma, are dependent on its tumor

作者 : RT Netea-Maier - 2018 - 相关文章

2018年1月28日 - Keywords: Tumor microenvironment. Tumor-associated macrophages. Cell metabolism. Immunometabolism ... During the last decades, it has become clear that in many tumors a proinflammatory TME promotes cancer development, progression and metastasis [2–5]. Moreover, the composition of the ...

Tumour microenvironment factors shaping the cancer metabolism ...

<https://www.nature.com/british-journal-of-cancer/review> - 翻译此页

作者 : D Anastasiou - 2017 - 被引用次数 : 9 - 相关文章

2016年12月22日 - This review focuses on recent advances in our understanding of cancer metabolism with emphasis on the influence of the tumour microenvironment. Mouse liver tumours induced by the Met oncogene synthesise glutamine, whereas Myc-induced liver tumours consume glutamine (Yuneva et al, 2012).
