

Biostatistics statement

Title: Prognostic significance of the fibrinogen-to-albumin ratio in gallbladder cancer patients

MS Number: 39426

The statistical methods and results of this study have been reviewed by a biomedical statistician.

A handwritten signature in grey ink that reads "Xinting Sang". The signature is written in a cursive, slightly slanted style. To the right of the signature, there is a vertical line that extends upwards from the top of the signature.
