

## BIostatISTICS REVIEW CERTIFICATE

Bordeaux, Wednesday 11th July 2018

To whom it may concern

Title: Factors associated with DAA virological failure and RAS description in HIV/HCV patients

Manuscript Number: 39428

The statistical analysis was realized by Camille Gilbert a biostatistician of the Inserm team Morph3eus/clinical trial unit CMG-EC and the statistical methods of this study were reviewed by Linda Wittkop (methodologist and head of the Inserm team Morph3eus-Bordeaux population health UMR1219 and head of the ISO:2009 version 2015 certified clinical trial unit CMG-EC). Furthermore, the statistical methods have been approved by the working group and the scientific committee of the French nationwide ANRS CO13 HEPAVIH cohort.
