SPECIFIC COMMENTS TO AUTHORS

This Editorial covers a timely and topical subject in oncology, namely the ever-green relevance of real-world studies in informing pattern of care and treatment decision in the clinic, together with their interaction with clinical trials. In addition to validate/assess the reproducibility of results coming from clinical trials in a more

realistic patient population and to look for answers about questions not yet addressed in clinical trials, the hypothesis-generating role of studies carried out in a daily practice context deserves to be mentioned. Please discuss how the latter can provide a springboard to advance preliminary data observed in the real world to prospective trials confirmation, making an example.
