Dear Editors,

As our grant approval letters contain sensitive information like director' signature, etc, and it is not a general practice in publication process. Hence, we request waive of grant approval letter. Similar waive was granted by BPG for our previous publication: NF- κ B promotes the stem-like properties of leukemia cells by activation of LIN28B. *World J Stem Cells*. Apr 26, 2018; 10(4): 34-42.

Yours faithfully,
