Editorial team  
World Journal of Translational Medicine

Upon the request of the authors, I reviewed the manuscript entitled "**More than boric acid: The increasing relevance of boron in medicine**" for grammar, spelling and style. I am a native English speaker familiar with the field, and have been working as a free-lance proofreader in Mexico City for over 20 years. In case of any questions, please feel free to contact me.

Kind Regards,

A handwritten signature in black ink, appearing to read "Bruce Allan Larsen". The signature is fluid and cursive, with the first name "Bruce" being the most prominent.
