**Title:** Mini-review: Animal models of pancreatitis- can it be translated to human pain study

**Author:** Jing-Bo Zhao, Dong-Hua Liao, Thomas Dahl Nissen

**Invited article:** Invited ID: 00002970

Topic Highlight

Professor Asbjørn

**Name of journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 4081

**Columns:** Review

**Responses to the comments from Editor:**

1, Please provide language certificate letter by professional English language editing companies (Classification of manuscript language quality evaluation is B).

For manuscripts submitted by non-native speakers of English, please provided language certificate by professional English language editing companies mentioned in 'The Revision Policies of BPG for Article'.

**Reply:** This review is one of series review which are invited by WJG and managed by professor Asbjørn. For the paper was written by non-native speakers of English, Professor Asbjørn have asked a researcher in our center who is native speakers of English to in charge of editing the English Language. The present review has been carefully read by

Oliver who is native speakers of English coming from England and working in our Center. He made a lot of changes of English language and grammar. We believe the English language has been now approved considerably.

2, Please write a summary of less than 100 words to outline the most innovative and important arguments and core contents in your paper to attract readers.

**Reply:** Core tip was added.

3, Please revise your Heading 1 like this.

**Reply:** The format of Heading 1 throughout the paper has been changed according to the suggestion.

#### **Point to point response to the reviewer (00503834)'s comments**

1, Comments To Authors: This manuscript is a brief review about animal model of pancreatitis. It did not show it's brilliant achievement. It is not suitable for journal of basic science. However, due to it's brief, it is suitable for basic concept about clinical gastroenterologist.

**Reply:** We realized that this paper is not suitable for journal of basic science, because it is mini-review paper. As it is mini-review paper, so it is very brief. We are appreciating that the reviewer believed this review is suitable for basic concept about clinical gastroenterologist.

2, Classification: C Good

**Reply:** We are appreciating the evaluation.

3, Language evaluation: Grade A: priority publishing

**Reply:** We are appreciating the evaluation. However, we have also asked the native speakers of English who work in our center to make further revision of English language.

4, Conclusion: High priority for publication

**Reply:** We are appreciating the positive suggestion.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in cursive script that reads "Jingbo Zhao".

**Jingbo Zhao, MD, PhD,**

Mech-Sense,
