Manuscript Type: SYSTEMATIC REVIEW

**Impact of machine perfusion of the liver on post-transplant biliary complications:
A systematic review**

**Yuri L Boteon, Amanda PCS Boteon, Joseph Attard, Lorraine Wallace, Ricky H
Bhogal, Simon Afford**

Abstract

Post-transplant biliary complications, mainly ischaemic-type biliary lesions, are a major obstacle to the wider utilisation of extended criteria donor livers. These complications place a heavy burden on health resources, as they are associated with
