Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: diabetesityrevised.doc).

Title: Bariatric surgery and diabetes remission: Sleeve gastrectomy or mini-gastric bypass?

Author: Milone Marco, Di Minno Matteo Nicola Dario, Leongito Maddalena, Maietta Paola, Bianco Paolo, Taffuri Caterina, Gaudioso Dario, Lupoli Roberta, Savastano Silvia, Milone Francesco, Musella Mario

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 4139

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

Reviewer **00043980**

We have carefully examined this new manuscript. This appears to be a "Preliminary Study". There are too few patients to allow a reliable multivariate logistic regression analysis. The results could be shown as Table 1, Figure 1 (parts a-c), and Figure 3.

We have highlighted in the revised manuscript that this should be considered a preliminary study, according to the reviewer's suggestion. Furthermore we have modified the Table and the figures according to the reviewer's suggestion.

Reviewer **00043980**

Good work

We want to thanks the reviewerfor his comment.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in purple ink, consisting of several loops and a long, sweeping tail that extends to the right.
