SPECIFIC COMMENTS TO AUTHORS

This was an import study for the treatment of mCRC with RAS mutant tumors. Authors indicated that triplet-regimen plus bevacizumab might be the preferred regimen for left-sided mCRC with RAS mutations. The results and interpretation of author's research

were different from other study published before. However I would prefer to know further information about the discussions: First, please supplement the reference for “Although a recent study reported that FOLFOXIRI plus bevacizumab may be regarded as a preferred option for only right-sided mCRC” (the last 3-4 line, Page 7). Second, could please the authors explain the possible reasons why their results were opposite to “a recent results” above?
