### SPECIFIC COMMENTS TO AUTHORS

This report addresses an important issue, its research Methodology was appropriate, and is well presented for the most part. I have a few methodological and minor suggestions : METHODOLOGICAL SUGGESTIONS A. Add a Table, constructed in

the same way as Table 1, with the relevant biochemical values. B. Explain whether "complications" (Table 2) address issues at presentation with DKA or during its treatment. In the second case, explain "severe acidosis". MINOR SUGGESTIONS A. Add a sentence in the third paragraph of the Results stating that Table 2 shows outcomes B. I found no listing of reference 3 in the text
