Dear Dr. Li,

**Major Liver Resections in a Low-Volume Center in the Caribbean**

We have submitted the manuscript captioned above to be considered for publication by the BPG Group Inc.

Title: **Clinical Outcomes after Major Hepatectomy are Acceptable in Low-Volume Centres in the Caribbean**

This research was a chart review. As such, no patients were contacted and/or interviewed. Instead, data was extracted from patient files. This research methodology was reviewed and approved by the local institutional review board / ethics committee. Therefore, we are not able to provide a document where patients have all signed giving consent to participate in this study.

We would like to affirm that a signed informed consent document is not applicable in this case.

Best Regards

Shamir Cawich
