**SPECIFIC COMMENTS TO AUTHORS**

The mini-review is fine as is. However, I have a couple of minor comments. First, the quality of the text is correct, but there are some minor formatting (space character) issues. Second, several recent reviews on the etiology, the criteria to diagnose, the prevention, and the treatment of sarcopenia could have been included. 1- Clin Cases Miner Bone

**SPECIFIC COMMENTS TO AUTHORS**

The paper does not help to clarify the issue, also because it combines studies that have different methodological approaches to sarcopenia.

**SPECIFIC COMMENTS TO AUTHORS**

Korkmaz and Eyigor reviewed the characteristics of Sarcopenia in rheumatic diseases. The present paper, is an extensive up date of the last data about this complication in inflammatory and degenerative rheumatic diseases. The review is well written, grammatically easy to read and it exposes the last bibliography about sarcopenia in a
