

**Patient consent form for Case Report publication**

Consent form For a patient's consent to publication of images and/or information about them for publication.

Name of patient:

[REDACTED]

Description of the photo, image, text or other material (Material) about the patient:

Anonymised demographics, past medical history, description of diagnosis and clinical events.

MRI of head, rhinomanometric data.

Provisional title of article in which Material will be included:

**The effect of intranasal stents (AlaxoLito, AlaxoLito Plus and AlaxoLito Xtreme) on the nasal  
airway: A case report with rhinomanometric and Magnetic Resonance Imaging studies**

CONSENT I [REDACTED], give my consent for the Material about me to appear for publication.

I confirm that I have seen the photo, image, text or other material about me. I am legally entitled to give this consent. I understand the following:

- (1) The Material will be published without my name attached, however I understand that complete anonymity cannot be guaranteed. It is possible that somebody somewhere - for example, somebody who looked after me or a relative - may recognise me/the patient.
- (2) The Material may show or include details of my medical condition or injury and any prognosis, treatment or surgery that I have, had or may have in the future.
- (3) The article may be published in a journal which is distributed worldwide. The publication will go mainly to doctors and other healthcare professionals but are also seen by many others including academics, students and journalists.
