1 We have removed from both the abstract and the Discussion section the statement "In our opinion, it is important to avoid a decrease in white blood cells in patients with RIFD".

Reviewer 00503674

2 we have changed the title to "Successful treatment of invasive fungal rhinosinusitis by Cunninghamella: A case report and review of literature".

3 A MR coronal and CT axial cuts are added to supplement the endoscopic view of figure 1.
