SPECIFIC COMMENTS TO AUTHORS

This review analyse the burden of MHE on quality of life of patients. The summary therapeutic approach examined only Rifaximin, Lactulose and probiotics. It would be preferable that the authors will show the activity of other substances as resveratrol or carnitine derivatives on quality of MHE.

SPECIFIC COMMENTS TO AUTHORS

The authors discussed in this review the quality of life in patients with minimal hepatic encephalopathy; A good job they did; However; there are major limitations: -You should describe the role of the new emerging treatments on patients with minimal hepatic encephalopathy and their role on improving quality of life in this category of patients e.g
