

## Answering Reviewers

Many thanks for each individual reviewer for taking time out of their busy schedules to meticulously review our manuscript.

I have re-submitted the manuscript taking each of the reviewers & editors comments into consideration.

### **Reviewer code: 02703298**

Thank you for accepting my manuscript as proposed.

### **Reviewer code: 00738988**

Thank you for your comments and suggestions. I have included the 2018 papers which you suggested as they add weight to the continued downward trend in 1-year mortality rates. Interestingly, the large study by Cancio et al (n = 30,000+) report a mortality rate of 22%, as suggested by our paper.

### **Reviewer code: 02691280**
