

UNIVERSIDADE ESTADUAL PAULISTA  
"JÚLIO DE MESQUITA FILHO"  
Campus de São José do Rio Preto

November 21, 2018.

Name of journal: World Journal of Gastroenterology

Manuscript No.: 43171

Column: Basic Study

Title: Relationship between *Fusobacterium nucleatum*, inflammatory mediators and miRNAs in colorectal carcinogenesis

#### Biostatistics Certificate

The statistical analyses of this study was carried out by the authors Marcela Alcântara Proença and Joice Matos Biselli using tools such as GraphPad Prism software (version 6.01). These researchers conducted several biostatistics courses and present experience and proficiency for the analysis used in this study.

I, Fernando Ferrari. Adjunct Professor, Department of Computer Science and Biostatistics, I confirm that the statistical methods of this study are appropriate for the research.

Sincerely,

Fernando

Ferrari
