GCO#: **17-0693-00001-01**
Principal Investigator: **Rosenblatt, Meg**
Department: **Anesthesiology**
Agency: **Icahn School of Medicine at Mount Sinai**

Dear Meg Rosenblatt:

Please be advised that your project submission titled, "**Fascia Iliaca Blocks cause Delayed Ambulation After Total Hip Arthroplasty**", has been recorded with the Grants and Contracts Office (GCO), and has been administratively reviewed and approved on **24-Mar-2017**, pending funding by the above agency, for the period ending **23-Mar-2018**. It has been determined that your protocol is exempt from Institutional Review Board (IRB) review. The following exempt category must be recorded as part of your extramural application (if applicable):

Exempt Category #4

Please keep the GCO informed of the ongoing status of this protocol, including the Agency's funding decision, when applicable. We are available to answer any questions and ask that you reference the GCO # in all communications.

For future reference, this research protocol will be reevaluated each year regarding human subject involvement. Please follow the GCO instructions and those of your sponsoring agency when preparing your progress report.

**Federal and Institutional Regulations regarding human subject and/or animal activities in research are available on our website, www.mssm.edu/grants.*

Sincerely,
Grants and Contracts Office
