Dear Editors:

This statement pertains to the manuscript titled *"Non-endoscopic assessment of chronic radiation proctopathy and radiofrequency ablation treatment follow-up with Optical Coherence Tomography angiography: a pilot study"* by Osman O. Ahsen, *et al.*

There were no statistical analyses performed for this study that requires statistical review by a biomedical statistician.

Sincerely,

Hiroshi Mashimo, MD, PhD
Associate Professor of Medicine, VA Boston
Healthcare System, Harvard Medical School
