Dear Sir or Madam,

We are writing as the authors and biostatisticians responsible for the article submitted to your journal by

Fragkos KC, Sotiropoulos I, Frangos CC. Empathy Assessment in Healthcare Students is Highly Heterogeneous: A Systematic Review and Meta-Analysis (2012-2016).

As authors, we confirm that the statistics are valid and truthful. We state this in light of our statistical expertise, since we are both professional statisticians.

Konstantinos C. Fragkos

Publications

Author of over 50 peer reviewed publications with over 500 citations. A full list is given at Google Scholar and ResearchGate.

Dr Christos Frangos

Dr Christos Frangos is currently Director at the Greek Research Institute for the Study of Quantitative, Social and Biomedical Problems. He is a Former Professor of Statistics & Business Methods at the Technological Educational Institute (TEI) of Athens, Athens, Greece.

He was born in Ioannina, Greece and received his:

- BSc in Mathematics, National Capodistrian University of Athens, Athens, Greece
- MSc in Statistics, Brunel University, London, UK
- PhD in Statistics, London School of Economics, London, UK

He has advanced through all academic positions working in various international academic institutions, among which Southern Methodist University (USA), University of Witwatersrand (South Africa), University of Ioannina (Greece) and University of Crete (Crete), and has provided consulting services to private companies.

His research has appeared in international journals, such as Biometrika, Communications in Statistics, Gut and CyberPsychology, Behavior & Social Networking and has participated in multiple international conferences. He has written seven books in various statistical topics.

His research has also appeared in various Greek newspapers (e.g. Ta Nea, Kathimerini, Ethnos, Eleftheros Typos, Eleftherotypia) and has been reported in Greek broadcasting media (e.g. Mega Channel, NET).

Yours sincerely,

Konstantinos Fragkos
