

08-December-2018

Dear Editor

I would like to submit a new manuscript entitled “**Human cord blood-derived viral pathogens as the potential threats to the hematopoietic stem cell transplantation safety: a mini review**” for consideration by “*World Journal of Stem Cells*”.

Unfortunately, we do not have access to language editing services and therefore we edited our manuscript carefully as much as possible and checked for proper grammar and spelling and correct usage of articles, prepositions, punctuation, active and passive voice, and sentence structure, as well as checking of the academic rules and norms.

Thank you for receiving our manuscript and considering it for review.

Sincerely

Maryam Kheirandish
