**Case series of non-invasive home lung impedance monitoring in early post-acute heart failure discharge: A case report**

Edita Lycholip, Eglė Palevičiūtė, Ina Thon Aamodt, Ragnhild Hellesø, Irene Lie, Anna Strömberg, Tiny Jaarsma, Jelena Čelutkienė

### Abstract

**Background:** Patients discharged after hospitalization for acute heart failure (AHF) are frequently readmitted due to an incomplete decongestion, which is difficult to assess clinically. Recently, it has been shown that the use of a highly sensitive, non-invasive
